

学校法人 正和学園

# Seiwa Gakuen School Corporation

- Seiwa Gakuen has a history of 82 years. Since 1939, we have been focusing on “child’s centered” early childcare education and continue to carry on the policy. We are in charge of 11 facilities based on Tokyo.

Our school mission: 「いきいき」 **iki-iki**

To create a positive and vibrant society through high quality early childhood education

We see children as member of next society.

Vibrant society where everyone enjoys a happy and fulfilling life as a strong foundation for meaningful prosperity.

Our teachers and children contribute to the development of vibrant, democratic societies that enable everyone to lead healthy and meaningful lives.

Our school attitude:

"Child centered and Child-Led Learning"

Everything in this curriculum is based on the principle of children's learning.

A) Early childhood curriculum empowers the child to learn and grow.

B) Early childhood curriculum reflects the holistic way children learn and grow.

C) The family and community are an important aspect of the early childhood curriculum.

(inspired by Te Whāriki – New Zealand Early childhood curriculum 2017)

# Our school core mind

① We empowers the child to learn and grow.

Children are problem solvers, critical thinkers, explorers, and wonderful learners.

They can sense the world that adults do not know.

② Children learn through responsive and reciprocal relationships with family, community, people, places and things.

The child learns through active exploration of the environment.

③ Children have a sense of well-being.

The health and well-being of the child are protected and nurtured.

④ Children and their families feel a sense of belonging.

Children feel comfortable and feel safe at PAL.

⑤ Children are participants in building the next society.

Opportunities for learning are equitable, and each child's contribution is valued.

Diversity is a major factor in creating a powerful new future.

The other cultures are promoted and protected.

Daily childcare and education will be structured by supporting children, based on the principle of "child-centered" learning, which is the basic philosophy of Seiwa Gakuen, so that they do not overlook their constant interests, curiosity, and motivation.

Children learn a lot by making new discoveries through observations, experiments and overcoming failures. The role of the caregiver is not to lead to the "correct answer".

From March 2021,

PAL International School is operated by Seiwa Gakuen
